Chapter 2

Class Index

2.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

Thermometer_430	
Thermometer_430 class	7

Chapter 3

File Index

3.1 File List

Here is a list of all documented files with brief descriptions:

temp430.ino	
Main sketch	9
Thermometer_430.h	
Library header	10

Chapter 4

Class Documentation

4.1 Thermometer_430 Class Reference

[Thermometer_430](#) class.

```
#include <Thermometer_430.h>
```

Public Member Functions

- [Thermometer_430](#) ()
Constructor.
- void [begin](#) ()
Initialisation.
- void [get](#) ()
Read a new measure.
- int32_t [temperatureX10](#) ()
Temperature based on moving average.

4.1.1 Detailed Description

[Thermometer_430](#) class.

4.1.2 Member Function Documentation

4.1.2.1 void Thermometer_430::begin ()

Initialisation.

Erase and perform measures NUMBER times to initialise moving average

4.1.2.2 int32_t Thermometer_430::temperatureX10 ()

Temperature based on moving average.

Returns

return temperature x 10 to avoid float

```
Serial.print(temperatureX10()/10, DEC); // integer part
Serial.print(".");                      // decimal separator
Serial.print(temperatureX10()%10, DEC); // decimal part
```

The documentation for this class was generated from the following files:

- [Thermometer_430.h](#)
- [Thermometer_430.cpp](#)

Chapter 5

File Documentation

5.1 temp430.ino File Reference

Main sketch.

```
#include "Thermometer_430.h"
```

Include dependency graph for temp430.ino:

Functions

- void **setup** ()
- void **loop** ()

Variables

- [Thermometer_430](#) myThermometer

5.1.1 Detailed Description

Main sketch. <#details#>

5.2 Thermometer_430.h File Reference

Library header.

This graph shows which files directly or indirectly include this file:

**Classes**

- class [Thermometer_430](#)
Thermometer_430 class.

Macros

- #define [NUMBER](#) 8
Number of measures for moving average.

5.2.1 Detailed Description

Library header. MSP430 internal thermometer library
